BELDT'S AQUARIUM

2141 Crescent Ave.

1935

Supplement

We are not printing a catalog this year. We have several thousand left from last year and the prices quoted in last year's catalog remain the same except for changes noted in this supplement. You will find a complete list of aquarium plants in our 1934 catalog. If you have misplaced your copy we will gladly mail you a new one.

Water Lilies and Pool Plants

If you have a lily pool send for our Water Lily Folder. It illustrates several plants in natural colors and quotes a complete selection of about 50 varieties.

Terms

Applying to Tropical Fish Listed in this Supplement

You will find our prices on tropical fish extremely reasonable. They are, however, for good size breeding fish of the same quality we have always shipped. We cannot at these low quotations guarantee live delivery. If you want live delivery guaranteed add 50% to cost of fish and we guarantee live delivery, but not beyond fifth zone.

Special Offer

On any order received for Water Lilies before June 1st, amounting to \$5.00 or more, we will ship free one pair golden trout, three inches long, no charge for container. The value of this pair of golden trout, which can be kept with goldfish and which eat the same food, is \$2.00. For each order for water lilies amounting to \$6.00 or more we will ship free a pair of silver trout, worth \$3.00 per pair, including shipping can. This offer is made to move our large stock of lily roots and does not cover other water plants.

New Tropical Fish Color Chart

We are offering you the largest illustration of tropical fish printed in natural colors. The size of the color chart is 19x28 inches. Besides showing about ninety fish in colors, it gives the names, habitat and breeding habits.

Mailed Postpaid for 50c

Live Bearer (Viviparous Killifishes)

These Fish Bring Forth Their Young Alive

Moons

It has 12 lbs. of stalling pressure and will operate on 3 to 4 cents per day.

Shipping Weight 8 Lbs.

RUSTIC AQUARIUM

Size 18" Long, 10" Wide and 10½" High
Gallon Capacity 7

Price Each \$8.00

Finish—Highly Glazed Natural Imitation Walnut

The Gem magnifies 72 to 150 diameters. An additional objective lens, for \$2.50, increases the magnification to 300 diameters. A third objective can be added to raise the power to 375×; \$2.50 also. So precise is the optical system that even at the greatest magnification there is none of the blurry color-fringe characteristic of inferior lenses. The many Gem advantages are worth seeing. Price \$14.50 with one objective (75× to 172×).

Highly Glazed and Perfectly Finished American Made Ornaments and Plant Pots

All ornaments are finished in a beautiful seagreen, baked glazed finish,
unless otherwise noted
